In the image, there are diagrams of eyewear frames showing measurements and alignment points. The diagrams include markings for right (R) and left (L) sides, with measurements and reference points indicated. The attention is drawn to checking the length and marking the lens with the given instructions:

- Marked Lens
- Drilling Jig affixed NASAL
- Drilling Jig affixed TEMPORAL
- Drilling angle

The diagrams also illustrate the orientation of the frames and the alignment of the lenses with reference points marked with an "X."
