|        | +4.00 |          |                   |       |       |       |       |       |       |       |

Combining these High Base Curves and the Larger Sizes will affect the lens thickness.  
 Base curve variations effect some patients so select carefully.  
 Parameters higher than these are available at the accounts own risk.
