Patterns available from Silhouette Customer Service at 800-223-0180
Inclination | TMA - The Icon

1. Support temple and lens mounting with mounting pliers to prevent stress on lens mounting

2. Bend the temple in the required direction
Hold lens fixation firmly with your fingers and use the Blue multi-tool to enlarge the temple opening.
Hold lens fixation firmly with your fingers and use the Blue multi-tool to reduce the temple opening.
Temple shortening non-glued | TMA - The Icon

Pull off temple end
1. Shorten titanium wire with metal-diagonal cutter
2. File down sharp edges and burrs
Temple shortening non-glued temple I TMA - The Icon

Squeeze titanium wire with round pliers at the very end to ensure the stability of the temple end and reinstall temple cover.
Adjust the temple to the ear shape with large curves. During temple-end adjusting do not put pressure on the temple tip.
Clean with ultrasonic bath or with ethanol/ethyl alcohol. These methods will not damage the frame.

Lenses with AR coatings could be damaged in ultrasound bath. Use caution with these lenses.

Always store your frame in the supplied case.
